EIF - SAFETY and ECOLOGY IN CHEMICAL INDUSTRY

Electrochemical Industries (Frutarom) Ltd. manufactures and markets chemicals and raw materials for a variety of industrial purposes. One of Israel's leading companies, it is the country's sole producer of PVC, which it markets both domestically and overseas.

Production of organic and inorganic chemicals, flavors and fragrances is carried out in major facilities located near the seashore in Akko and Haifa, staffed by some 600 highly qualified and skilled employees. EIF's shares have been traded on the Tel Aviv Stock Exchange since 1976, and were listed on the American Stock Exchange in 1989. Majority interest in the Company is held by ICC Handels A.G., Switzerland, a subsidiary of ICC N.Y. U.S.A.
